# INFOMATION about the recommended restaurants

## [tom tom kikir (トムトムキキル) - soup curry]

This is the real local food. Some of restaurants which serve really tasty food are located in bit far from the center part. You need a car to get this restaurant, however, the taste is worth to eat. Thanks for tom tom kikir, I know what the real soup curry is. It is the one of the reason for the real soup curry that they only use organic spices and seasonings.

## [Ebisoba Ichigen (海老そば一幻)- Ramen]

My staff from France, my clients, and ,of course, myself, everybody loves this ramen restaurant. Ebisoba Ichigen' s broth is shrimp which is rare ramen broth. It's walkable distance from Susukino area. As you are in Sapporo, you gotta go to Ebisoba Ichigen! If you don't have a chance to visit, don't worry. There is Ebisoba Ichigen in New Chitose Airport as well.

## [Shingen (信玄) - Ramen]

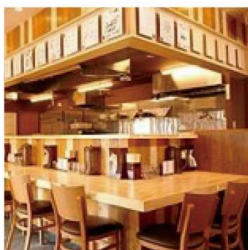

This is one of the best ramen restaurant among standard ramen restaurant. The soup is cooked for over 50 hours. The name "Shingen(信玄)" is a famous samurai's name in Sengoku period (戦国時代). Each ramen menu are named after the old area names. It is rare that every Miso, Sault, and Soy sauce flavors is great and tasty. Shingen is close to Ichigen so you might want to try both ramen.

## [Torimon (とりもん) – Hot pot/Izakaya]

If you want to eat at general izakaya around Sapporo station, this is the one I recommend. Mainly they serve chicken dishes which are so tasty and juicy. Restaurant's staffs are so friendly and the food prices are reasonable. Also location is great. There are Sapporo clock tower and Former Hokkaido Government Building nearby.

## [Malco (マルコ) - Izakaya]

This restaurant mainly serves local Hokkaido food; fish, meat, and vegetable. Also, they serve variety of Sake and Shochu. It is located in Nijyo market which is a famous fish market in Sapporo. I usually take my friends from Tokyo to let them feel the vibe of Sapporo and taste Hokkaido real food.
